Washington, March 30,—Senator Culiom introduced a bill to-day appro-priating \$500,000 for the erection of a monument to Abraham Lincoln in this city. There are now three monuments to Lincoln, but none of them are adequate memorials of his greatness or expressions of the admiration and respect in which his name is held. One of them stands in front of the Judiciary Building, at the top of a tail shaft of marble, and was erected soon recognized, and is a very poor likeness. The second is Vinnie Ream's muchdiscussed statue, which stands in the old Hall of Representatives at the Capitol. The third is a bronze statue in

The opportunities for ladies to find employment that is both suitable and remunerative are limited; their pay is usually poor as compared with the salaries paid to men in same lines of occupation. But there are some very noted exceptions; journalism, the drama, music and the pistform offer equal advantages to men and women ; and there is one occupation in which women are gentrally more successful than men, and that is in the managel ment of special agencies. By special agencies, we mean they are given the exclusive control of the sale of special articles that cannot be bought at the stores, and if the articles have ment. and are in demand, they are a sure source of profit to the special agent if properly handled. In this line the Cincinnati Suspender Company are offering inducements to ladies that we think ought to attract attention. They are now manufacturing the now celebrated Opesa City Skirt Sparsend. They are now manufacturing the now celebrated Queen City Skirt Suspenders for ladies and misses and their unequaled Stocking Supporters for ladies and children.
